

WORLD OF RADIO #1074, produced March 28, 2001 by Glenn Hauser

- *Continent of Media is on RFPI several times a week, and via two different audio sources, my website, and <http://www.DXing.com>
- *Because of DST, WOR one hour earlier by UT from April 1 on WWCR and WBCQ; same UT on RFPI. Via WRN1 to North America stays 9 am Saturdays CST/CDT
- *Summer and winter differences between UT and Eastern, Central time
- *New Saturday afternoon programs on WBCQ, 17495
- *KNLS, Alaska, English at 1300 now masked by WEWN
- *United Nations Radio, English news to Africa schedule
- *Channel Africa, South Africa, English schedule
- *Two Nigerian regionals active on 49mb, one reactivated
- *Big internal dispute at Rai, Italy on overhauling international schedule; strike threatened; new schedule supposedly from April 9. See DXLD 1-039, 1-040, 1-041 via <http://www.angelfire.com/ok/worldofradio/>
- *Spain up to 15 MHz band this summer for English to North America
- *R. France International adds SW frequencies for morning English to Africa; and even 11 meters for English at 1200; 1400 and 1600 frequencies; on Sunday 1400 lasted a full hour
- *RVI kept English at 2230, ``RVI, Flanders International Radio``; Radio World on demand now via <http://www.rvi.be> Abbreviation is now RVI, not RVI
- *BBC Radio 4, not dumbed down, has intellectual program which is quite popular, In Our Time, Thursdays 0800-0845, 2030-2115 UT
- *R. Sweden's direct frequencies in English to North America
- *R. Finland has only two English broadcasts on SW
- *Austria's diminished schedule in English
- *R. Budapest, Hungary, new English schedule; one frequency clashes with China via Cuba; why not stay on clear 9835?
- *Serbia giving priority to reactivating domestic relay on 7200
- *Romania's actual summer English schedule, in part
- *V. of Greece, new relay schedule via USA; English programs
- *UAE Radio, Dubai, monitored English schedule [except 0330]
- *Iran clashes with one of them; 4-page single-spaced frequency schedule in DXLD 1-042, to be checked for unIDs
- *VOIR of Iran in English very good in New York on 13730 at 1930
- *The media magazine you monitor with your mind, WOR 1074, wghauser@hotmail.com or P O Box 1684, Enid, OK 73702 USA
- *Thanks this week for financial support go to Gerald T. Pollard
- *All India Radio Kohima drifts to clearer frequency unlike Leh and Port Blair
- *Chinese on 25 MHz is a fifth harmonic
- *Canada adds three hours of morning relays of China to USA
- *R. Korea International plans to keep morning relay via Canada at same UT, so one hour later by local clocks; a direct option
- *V. of Vietnam schedule shows new relays via South Africa, England

- *A few remaining RRIndonesians on 90, 75, 60 meters
- *Alice Springs, Australia staying on 4835 all night, not 2310
- *R. Australia panic to replace satellite feeds to Asia
- *R. Australia frequency schedule shows four Darwin transmissions,
none via Taiwan
- *CHNX, Halifax, Nova Scotia, reactivated on 6130 with 50 watts
(recording); 75th anniversary special ID planned for May 12
- *Changes in RCI to Africa at 1800 from four sites, including new
Dhabayya, UAE; Abu Dhabi may also relay others such as RFA
- *Check DRM digital interference against RCI 17870 at 1930-2000
from Bonaire 17880
- *R. Corsario Internacional, pirate in Maracaibo, Venezuela, QSL
via <http://www.eqsl.cc>
- *Two Venezuelans commonly owned, and Ecos del Torbes ID heard on
frequency of R. Tachira
- *Brazil's R. Filadelfia excited about listeners in Sweden
- *Blob around 6304 is R. Union, Peru, reported by Nicolas Eramo in
Argentina [not Venezuela as I said], i.a.
- *HCJB's India broadcast contains DX Partyline Saturday 2310 on 17660
- *XERTA heard again, off-frequency
- *Kentucky State Militia Radio not heard since last week, regrouping
- *Kevin Mitnick, former computer hacker, co-hosting Dark Side of the
Internet on KFI, <http://www.kfi640.com>
- *Amigos de la Madrugada program during KRLD silent hour was Cuba
- *Unusual propagation the past week; sun getting active again with
flares, large sunspot, very high solar flux reaching 263
- *Propagation outlook from Boulder issued March 27: flux 240-140-235
- *Glenn Hauser concluding World of Radio 1074 with a standard
disclaimer
